

## October Kindergarten Everyday Math Home Links

| Sunday  | Monday  | Tuesday  | Wednesday  | Thursday  | Friday   | Saturday  |
|---|---|--|--|---|--|---|
|  | Get a handful of coins. Find all the pennies. Count them.                         | Count up to 10 if you can. Count up to 5 if not.                 | Count backwards from 5 to 0. Now count from 10 to 0 if you can.          | Count how many people are in your family.   | Count how many chairs there are in your kitchen.                       |   |
|   | Practice writing the numbers 0 to 5 in the air or on a piece of paper.            | Open the refrigerator and count how many red things are in it.   | Take spoons out of the drawer and show sets of 0-5 spoons.               | Find 5 toys. Point to the first one. Point to the last one.                                     | Count to 21 if you can or count as high as you can!                    |   |
|   | Count backwards from 5 to 0. If you can, count backwards from 10 to 0.            | Get a handful of change, pick out the pennies.                   | Count up to 21 or as high as you can count.                              | Find different shapes in your house, and name them.   | Count how many windows are in your house.                              |   |
|   | Count up to 21 or as high as you can count.                                       | Count your toys. Show the first one and the last one.            | Show five fingers. Show 2 fingers. Show 3 fingers. Show 0 fingers.       | Count backwards from 5 – 0 or count backwards from 10 –0 if you can.                            | Count how many orange things there are in your kitchen.                |   |
|   | Get a handful of coins. Sort them. Count the pennies. How many cents do you have? | Open the refrigerator and count how many green things are in it. | Find all the square shaped objects in your house. How many did you find? | Find 7 toys. Point to the first one. Point to the last one. Can you find the toy in the middle? | Practice writing the numbers 0 to 8 in the air or on a piece of paper. |  |

*Please note: If any of these activities are too difficult or too easy for your child, consider modifying or adjusting the numbers to better reflect his or her needs.*

## Number Grid

|            |            |            |            |                 |            |            |            |            |                 |
